# Highlights

### Master outlet
Provides power exclusively to the master device.

### 4 secondary outlets
Flow of power to these outlets is automatically controlled by the master device, conveniently averting stand-by modes for energy savings.

### Phone line protection
These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

### 6 outlets
Converts one outlet into six outlets allowing you to plug in multiple devices from one single AC outlet.

### 1 always-on outlet
An outlet that is not controlled by the master power switch. Constant power is maintained for devices like rechargers, fax machines, etc.

### Protection indicator light
This LED alert lights up to indicate the surge protector is working properly.

### $150,000 equipment warranty
Protects your connected equipment for the life of the product.

### 6 ft power cord
Provides power to the unit which can be 6 feet from the AC outlet.
